## **1. Reporting Entity**

Falcon Oil & Gas Ltd. (the “Company” or “Falcon”) was incorporated under the laws of British Columbia, and has producing petroleum and natural gas properties in Alberta, Canada and exploration projects in Hungary, Australia and South Africa.

The Company is in the business of acquiring, exploring and developing petroleum and natural gas properties which, by its nature, involves a high degree of risk, and there can be no assurance that current exploration programs will result in profitable operations. The recoverability of the carrying value of the petroleum and natural gas properties and the Company’s continued existence is dependent upon the preservation of its interests in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to obtain financing or, alternatively, upon the Company’s ability to economically dispose of its interests. Certain of the Company’s petroleum and natural gas properties are subject to the risks associated with foreign investment, including increases in taxes and royalties, renegotiation of contracts, currency exchange fluctuations and political uncertainty.

## **2. Basis of Presentation and Preparation**

### **(a) Statement of compliance:**

These interim condensed consolidated financial statements are unaudited and have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’ (“IAS 34”) using accounting policies consistent with the International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”) and Interpretations of the International Financial Reporting Interpretations Committee (“IFRIC”). The condensed consolidated interim financial statements do not, however, include all of the information required for full annual financial statements prepared under IFRS.

The condensed consolidated financial statements are presented in United States dollars and tabular amounts, except as otherwise indicated, are presented in thousands of dollars.

### **(b) Basis of measurement:**

The condensed consolidated financial statements have been prepared on the historical cost basis except for derivative financial instruments which are measured at fair value (as discussed in Note 4).

### **(c) Going Concern:**

For the six months ended June 30, 2012, the Company incurred a net loss of \$7.7 million and operating cash outflows of \$3.9 million and, as at June 30, 2012, had a deficit of \$324.4 million. The Company’s ability to continue as a going concern in the short term is dependent upon its ability to raise additional capital from the sale of additional common shares or other debt or equity instruments and/or to secure an industry partner for its operations in Hungary and South Africa. There is no assurance that additional capital will be available to the Company on acceptable terms or at all, or that an industry partner will be secured.

## **2. Basis of Presentation and Preparation (continued)**

The Company has worked on securing joint venture funding for its operations in the Makó Trough located in Hungary. On June 9, 2011, the Company entered into a Letter of Intent with Naftna Industrija Srbije, j.s.c. Novi Sad (“NIS”) for the earning of an interest by NIS in producing the Algyő play within Falcon’s Makó production license in Hungary. In July 2012, the Company and NIS concluded negotiations and have filed the proposed agreement with the Hungarian Ministry of Finance (“the Ministry”) for a ruling on the tax and accounting treatment of the agreement. Upon a favorable ruling by the Ministry, the Company and NIS intend to enter into a definitive agreement.

In the longer term, the recoverability of the carrying value of the Company’s long-lived assets in Hungary and Australia is dependent upon the Company’s ability to preserve its interest in the underlying petroleum and natural gas properties, the discovery of economically recoverable reserves, the achievement of profitable operations, and the ability of the Company to obtain financing to support its acquisition, exploration, development and production activities.

These consolidated financial statements are prepared in accordance with IFRS appropriate for a going concern. The going concern basis of accounting assumes the Company will continue to realize the value of its assets and discharge its liabilities and other obligations in the ordinary course of business. There is uncertainty as to whether the Company will be able to realize its assets and discharge its liabilities in the normal course of operations. Should the Company be required to realize the value of its assets in other than the ordinary course of business, the net realizable value of its assets may be materially less than the amounts shown in the consolidated financial statements. These consolidated financial statements do not include any adjustments to the amounts and classifications of assets and liabilities that may be necessary should the Company be unable to repay its liabilities and meet its other obligations in the ordinary course of business or continue operations, and those adjustments may be material.

### (d) Use of estimates and judgments:

The preparation of financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

## **3. Significant Accounting Policies**

The interim financial statements have been prepared following the same accounting policies and methods of computation as the audited financial statements of the Company for the year ended December 31, 2011. The interim financial statements and notes thereto should be read in conjunction with the 2011 annual financial statements.

**11. Share based compensation**

The Company, in accordance with the policies of the TSX-V, may grant options to directors, officers, employees and consultants, to acquire up to 10% of the Company's issued and outstanding common stock. The exercise price of each option is based on the market price of the Company's stock at the date of grant, which may be less a discount in accordance with TSX-V policies. The exercise price of all options granted has been based on the market price of the Company's stock at the date of grant, and no options have been granted at a discount to the market price. The options can be granted for a maximum term of five years. The Company records compensation expense over the vesting period based on the fair value at the grant date of the options granted. These amounts are recorded as contributed surplus. Any consideration paid on the exercise of these options together with the related contributed surplus associated with the exercised options is recorded as share capital.

A summary of the Company's stock option plan as at June 30, 2012 and December 31, 2011, and changes during the three months and the year then ended, is presented below:

**11. Share based compensation (continued)**

During the six months ended June 30, 2012, the Company granted 6.0 million (2011 – 17.8 million) options at an exercise price of \$0.10 (CDN\$0.10) (2011 - \$0.15 (CDN \$0.15)) per share. Of the options granted during the six months ended June 30, 2012, all vest 1/3 ratably at the anniversary date over three years, and have an expiry date of May 1, 2017. Of the options granted during the year ended December 31, 2011, all vest 1/3 at the date of grant, with the remainder vesting ratably at the anniversary date over the two years thereafter.

The fair value of the granted options was estimated using a Black Scholes model with the following weighted average inputs:

|                             | 2012       | 2011          |
|-----------------------------|------------|---------------|

**12. Decommissioning Provision (continued)**

The Company's decommissioning provision results from its ownership interest in oil and natural gas assets. The total decommissioning provision is estimated based on the Company's net ownership interest in the wells, estimated costs to reclaim and abandon these wells and the estimated timing of the costs to be incurred in future years. The Company has estimated the net present value of the decommissioning provision to be \$9.1 million as at June 30, 2012 (2011 – \$8.8 million) based on an undiscounted total future liability of \$13.1 million (2011 – \$13.1 million). These payments are expected to be made over the next 20 years with the majority of costs to be incurred between 2027 and 2031. The discount factor, being the risk free rate related to the liability, was 2.38% as at June 30, 2012 (2011 – 2.57%).

**14. Corporate Headquarters Relocation**

During the second quarter of 2012, the Company decided to relocate its corporate headquarters from Denver, Colorado to Dublin, Ireland. In connection with that decision, all individuals and consultants in Denver are to be terminated, and the Company will close its Denver office no later than early in the fourth quarter of 2012. At June 30, 2012, the Company has recorded an estimate of the expenses related to this restructuring, including severance and employee related benefits, certain one-time expenses, acceleration of the recognition of certain future expenses and acceleration of the depreciation of certain assets. All of these restructuring expenses are included in the United States segment.

The following is a summary of restructuring expenses related to the relocation of the corporate headquarters including the line in the consolidated statement of operations and comprehensive loss in which the expense is recognized:
