## Falcon Oil & Gas Ltd.

### Notes to the Interim Condensed Consolidated Financial Statements (Unaudited) For the Three and Six Months Ended 30 June 2021 and 2020

---

#### 1. General Information

Falcon Oil & Gas Ltd. (“**Falcon**”) is an oil and gas company engaged in the exploration and development of unconventional oil and gas assets. Falcon’s interests are located in Australia, Hungary, South Africa and Canada. The carrying value at 30 June 2021 of the Company’s interest in Australia is \$40.2 million, while the Hungarian asset is nil due to a determination in 2014 that the estimated recoverable amount was insufficient to cover the carrying value of the asset. For the South African interest, costs associated with the technical cooperation permits are expensed as incurred.

Falcon is incorporated in British Columbia, Canada and headquartered in Dublin, Ireland with a technical team based in Budapest, Hungary. Falcon’s common shares are traded on Toronto’s TSX Venture Exchange (“**TSX-V**”) (symbol: FO.V); and AIM, a market operated by the London Stock Exchange (symbol: FOG).

The information provided herein in respect of Falcon includes information in respect of its wholly-owned subsidiaries: Mako Energy Corporation, a Delaware company (“**Mako**”); TXM Oil and Gas Exploration Kft., a Hungarian limited liability company (“**TXM**”); Falcon Oil & Gas Ireland Ltd., an Irish limited liability company (“**Falcon Ireland**”); Falcon Oil & Gas Holdings Ireland Ltd., an Irish limited liability company (“**Falcon Holdings Ireland**”); Falcon Oil & Gas USA Inc., a Colorado company (“**Falcon USA**”); Falcon Exploration and Production South Africa (Pty) Ltd., a South African limited liability company (“**Falcon South Africa**”) and its 98.1% majority owned subsidiary, Falcon Oil & Gas Australia Limited, an Australian limited liability company (“**Falcon Australia**”) (collectively, the “**Company**” or the “**Group**”).

#### 2. Accounting policies

##### Basis of preparation and going concern

These Interim Condensed Consolidated Financial Statements (“**Interim Statements**”) of the Group have been prepared in accordance with IAS 34 ‘Interim Financial Reporting’ and, except as described below, on the basis of the same accounting principles as, and should be read in conjunction with, the Consolidated Financial Statements for the year ended 31 December 2020 (pages 10 to 16) as filed on the Canadian Securities Administrator’s System for Electronic Document Analysis and Retrieval (“**SEDAR**”) at [www.sedar.com](http://www.sedar.com).

There are no amended accounting standards or new accounting standards that have any significant impact on these interim financial statements applicable as at 1 January 2021.

The Interim Statements are presented in United States dollars (“\$”). All amounts, except as otherwise indicated, are presented in thousands of dollars. Where referenced in the Interim Statements “**CDN\$**” represents Canadian Dollars, “**£**” represents British Pounds Sterling, “**HUF**” represents Hungarian Forints, and “**A\$**” represents Australian Dollars.

As at 30 June 2021 the Group had \$10m of cash and cash equivalents, which is sufficient to cover ongoing operating costs for the next 12 months from the date of the approval of the financial statements. The 2021 work programme has commenced on the Group’s Beetaloo Sub-basin asset in the Northern Territory Australia. In April 2020 Falcon Australia agreed to farm down 7.5% of its participating interest in the Exploration Permits to Origin Energy B2 Pty Ltd. (“**Origin**”). Following the transaction, Falcon Australia holds a 22.5% participating interest. In consideration for the farm down the Stage 2 and Stage 3 gross cost caps were combined and increased by A\$150.5 million to A\$263.8 million, with costs above this cost cap to be borne by Falcon and Origin in proportion to their participating interests. Northern Territory government approval remains outstanding; however, management expects this will be received in due course. The Stage 2 work programme recommenced in June 2021 at Kyalla 117 N2-1H ST2 with further operations commencing at Amungee NW-1H and Velkerri 76 S2-1 in August 2021. The results from the 2021 work programme will determine the Stage 3 work programme, which is expected to be carried out in 2022. As at the date of approval of these financial statements the estimation for Stage 3 costs, and therefore the amount, that may need to be contributed by the Group remains uncertain.

The Directors and Management are confident that should further funding be required it can be raised through either an equity raise or debt funding. As at the date of the approval of these financial statements no such further funding has been raised and there can be no certainty that sufficient funds can be raised if required. This indicates the existence of a material uncertainty, which may cast significant doubt over the Group’s ability to continue as a going concern, and, therefore, it may be unable to realise its assets and discharge its liabilities in the normal course of business. The financial statements do not include adjustments that would result if the Group was unable to continue as a going concern. Having given due consideration to the cash requirements of the Group, the Board of Directors (“**the Board**”)

**Falcon Oil & Gas Ltd.****Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)  
For the Three and Six Months Ended 30 June 2021 and 2020****2. Accounting policies (continued)**

has a reasonable expectation that the Group will have adequate resources to continue in operational existence for the foreseeable future. For this reason, the Board continues to adopt the going concern basis in preparing these consolidated financial statements which assumes the Group will be able to meet its liabilities as they fall due for the foreseeable future.

**3. Segment information**

Based on internal reporting information, it was determined that there is one reportable segment. All of the Group's operations are in the petroleum and natural gas industry with its principal business activity being in the acquisition, exploration and development of petroleum and natural gas properties. The Group has producing petroleum and natural gas properties located in Canada and considers the results from its operations to relate to the petroleum and natural gas properties. The Group has unproven petroleum and natural gas interests in Australia, South Africa and Hungary.

The key performance measures reviewed for the segment which management believes are the most relevant information when evaluating the results of the Group are:

- the progress and extent to which farm-out agreements have been executed over the Group's acreage; and
- cash flow, capital expenditure and operating expenses.

An analysis of the geographic areas is as follows:

	Australia \$'000	South Africa \$'000	Hungary \$'000	Other \$'000	Total \$'000

**9. Share based compensation**

The Group, in accordance with the policies of the TSX-V, may grant options to directors, officers, employees and consultants, to acquire up to 10% of the Group's issued and outstanding common stock. The exercise price of each option is based on the market price of the Group's stock at the date of grant, which may be discounted in accordance with TSX-V policies. The exercise price of all options granted to date has been based on the market price of the Group's stock at the date of grant, and no options have been granted at a discount to the market price. The options can be granted for a maximum term of five years. The Group records compensation expense over the vesting period based on the fair value at the grant date of the options granted. These amounts are recorded as contributed surplus.

Any consideration paid on the exercise of these options together with the related contributed surplus associated with the exercised options is recorded as share capital. The Group incurred a share-based expense of \$747,000 during the six months ended 30 June 2021 (2020: \$0).

Six million options were granted in the period to 31 March 2017 at an average exercise price of CDN\$0.20. Two million options vested immediately with an additional one third vesting on each subsequent anniversary until the options fully vested on 22 February 2019.

29,333,3334 share options which formed part of an overall grant on 15 January 2016, were not exercised and expired on 14 January 2021.

On 19 February 2021 Falcon announced it granted incentive stock options ("**Options**") on 18 February 2021 to purchase an aggregate of 38,000,000 common shares of Falcon to a number of recipients, including directors and officers under the stock option plan approved at Falcon's annual shareholders meeting held on 10 December 2020.

The Options were granted at an exercise price of GBP£0.08 (equivalent to CDN\$0.14) and GBP£0.12 (equivalent to CDN\$0.21) respectively.

**Falcon Oil & Gas Ltd.**

**Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)  
For the Three and Six Months Ended 30 June 2021 and 2020**

**9. Share based compensation (continued)**

All Options granted have a vesting schedule allowing one third of the Options to vest immediately with an additional one third vesting on each subsequent anniversary with the Options fully vested on 18 February 2023. The Options have an expiry date of 17 February 2026.

A summary of the Group's stock option plan as of 30 June 2021 and 31 December 2020 and changes during the periods then ended, is presented below:

	Six months ended 30 June 2021		Year ended 31 December 2020

**Falcon Oil & Gas Ltd.****Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)  
For the Three and Six Months Ended 30 June 2021 and 2020****10. Determination of fair values**

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and / or disclosure purposes based on the methods outlined below. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

*Cash and cash on equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses*

As at 30 June 2021 and 31 December 2020, the fair value of cash and cash on equivalents, restricted cash, accounts receivable, accounts payable and accrued expenses approximated their carrying value due to their short term to maturity.

**11. Financial Instruments and risk management**

The following tables provide fair value measurement information for financial assets and liabilities as at 30 June 2021 and 31 December 2020. The carrying value of cash and cash equivalents, restricted cash, accounts receivable, and accounts payable and accrued expenses included in the consolidated statement of financial position approximate fair value due to the short term nature of those instruments. Financial assets in the table below are measured at amortised cost.

	Carrying value \$'000	30 June 2021 Fair value \$'000	31 December 2020 Carrying value \$'000	Fair value \$'000
<b>Financial assets:</b>				
Cash and cash equivalents including restricted cash	12,334	12,334	13,465	13,465
Accounts receivable	125	125	129	129
<b>Financial Liabilities:</b>				
<i>Other financial liabilities</i>				
Accounts payable and accrued expenses	470	470	717	717

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

*Level 1 Fair Value Measurements*

- Level 1 fair value measurements are based on unadjusted quoted market prices.

*Level 2 Fair Value Measurements*

- Level 2 fair value measurements are based on valuation models and techniques where the significant inputs are derived from quoted indices.

*Level 3 Fair Value Measurements*

- Level 3 fair value measurements are based on unobservable information. No financial assets or liabilities have been valued using the Level 3 fair value measurements.

**Falcon Oil & Gas Ltd.****Notes to the Interim Condensed Consolidated Financial Statements (Unaudited)  
For the Three and Six Months Ended 30 June 2021 and 2020****12. Derivative liabilities**

Derivative liabilities consisted of the fair value of a warrant. Changes in the fair value of the derivative liabilities are recorded in the Consolidated Statement of Operations and Comprehensive Loss. On 3 October 2017, Falcon announced the transfer of the warrant to acquire 10,000,000 common shares in the capital of Falcon by Hess Oil and Gas Holdings Inc. to Nicolas Mathys. The terms of the warrant were unchanged, with an exercise price of CDN\$0.19 per share and an expiry date of 13 January 2020. The warrant was not exercised and expired on 13 January 2020.

	<b>Warrant \$'000</b>
At 1 January 2020	110
Derivative gain – realised - warrant	(110)
At 31 December 2020 - current	0
<b>At 30 June 2021 - current</b>	<b>0</b>

The terms of the warrant were as follows:

<b>Warrant issue</b>	<b>Date of issue</b>	<b>Number of common shares issuable under warrant</b>	<b>Exercise Price CDN\$</b>	<b>Proceeds from warrant* CDN\$'000</b>	<b>Expiry date</b>
Warrant	13 July 2011	10,000,000	0.19	1,900	13 January 2020
<b>Total</b>		<b>10,000,000</b>		<b>1,900</b>	

\*Proceeds from warrant are subject to the warrant holder exercising their warrant.

**13. Decommissioning provision**

A reconciliation of the decommissioning provision for the period ended 30 June 2021 and the year ended 31 December 2020 is provided below:

	<b>30 June 2021 \$'000</b>	31 December 2020 \$'000
Balance as at beginning of period	<b>10,563</b>	10,331
Revision to provisions	-	1
Transfer of Canadian working interests	<b>(28)</b>	-
Accretion	<b>118</b>	231
<b>Non – current; balance at end of period</b>	<b>10,653</b>	10,563

The Group's decommissioning provision results from its ownership interest in oil and natural gas assets. The total decommissioning provision is estimated based on the Group's net ownership interest in the wells, estimated costs to reclaim and abandon these wells and the estimated timing of the costs to be incurred in future years. The Group's has estimated the net present value of the decommissioning provision to be \$10.4 million as at 30 June 2021 (2020: \$10.1 million) based on an undiscounted total future liability of \$12 million (2020: \$12 million). These payments are expected to be made over approximately the next six years. The discount factor, being the risk-free rate related to the liability, was 2.25% as at 30 June 2021 (2020: 2.25%). A 1% increase / (decrease) in the discount rate to 3.25% / 1.25% will (decrease) / increase the provision by (\$735,000) / \$689,000.

***Work program commitments***

*Australia - Beetaloo Sub-Basin, Northern Territory, Australia*

The Group planned a drilling programme which commenced in 2015 with its farm-out partners.

In August 2018 the Group agreed to amend the original farm-out agreement to deem Stage 1 of the exploration and appraisal drilling programme complete, thereby removing the requirement to fracture stimulate a vertical well and accelerate the programme into Stage 2 with a A\$15 million increase to the Stage 2 Cost Cap to approximately A\$65 million. Costs above the Cost Cap would need to be financed by the Group in accordance with their participating interest.

Originally the Group indicated that it expected the work to be undertaken between 2016 and 2018, however the introduction of a moratorium on hydraulic fracturing delayed the completion of the drilling and exploration programme. In March 2018, the inquiry concluded its work with the publication of a Final Report and on 17 April 2018, the Northern Territory government announced they would be lifting the moratorium on hydraulic fracturing. Work recommenced in 2019, details of current operations to date are included in the Management's Discussion & Analysis document for the three and six months ended 30 June 2021.

On 7 April 2020 it was announced that Falcon Australia had agreed to farm down 7.5% of its participating interest ("PI") in the Exploration Permits, such that following the transactions, Falcon Australia holds a 22.5% PI. In consideration for the farm down Origin agreed to increase the gross cost cap of the work program by A\$150.5 million. The previous farm-in arrangement included a Stage 2 gross cost cap of A\$65.3 million and a Stage 3 gross cost cap of A\$48 million, or A\$113.3 million in total. Under the Agreements, the Stage 2 and Stage 3 gross cost caps will be combined and increased by A\$150.5 million to A\$263.8 million. Northern Territory government approval remains outstanding; however, management expects this will be received in due course. Costs in excess of the cost cap of A\$263.8 million will be funded in proportion to the participating interest of the joint venture partners.

**17. Commitments (continued)**

On 19 January 2021 Falcon announced that Origin had submitted a Notification of Discovery to the Department of Industry, Tourism and Trade of the Northern Territory (DITT) on Kyalla 117, full details are included in the Management's Discussion & Analysis document for the three and six months ended 30 June 2021. The early-stage flow rates are preliminary indications of well performance, and an EPT will be required to determine the long-term performance of Kyalla 117. Longer-term measures will be put in place to flow back sufficient hydraulic fracture stimulation water to allow Kyalla 117 to flow continually without assistance and if successful enable an EPT.

Details of the planned 2021 work programme were announced in March 2021 and included:

- Resumption of clean-up operations of Kyalla 117 N2-1H ST2 and if successful commence an extended production test;
- Drilling of the Velkerri 76 S2-1 vertical well; and
- A production test at Amungee NW 1H.

The latest updates on the 2021 work programme are included in the Management's Discussion & Analysis document for the three and six months ended 30 June 2021.

*South Africa - Karoo Basin, South Africa*

On granting of an approved exploration right in South Africa, the Group will be required to make a payment to the South African government of approximately \$0.7 million.

*Hungary - Makó Trough, Hungary*

The Group is not committed to any independent technical operations in Hungary.

**18. Subsequent Events**

There were no subsequent events noted up to the approval of the of these interim financial statements on 26 August 2021.

**19. COVID-19 Pandemic**

On 11 March 2020, the World Health Organization ("WHO") characterized the outbreak of a strain of the novel coronavirus ("COVID-19") as a global pandemic which has resulted in a series of public health and emergency measures that have been put in place to combat the spread of the virus. The Company has taken steps to ensure the health and safety of employees and that all safety guidelines as established by health authorities are met. On 26 March 2020 given the unprecedented circumstances brought about by COVID-19, the joint venture decided to temporarily pause activities in the Beetaloo Sub-basin, with the resumption of activities at Kyalla 117 in September 2020, full details are included in the Group's Annual Information Form for the fiscal year ended 31 December 2020 dated 26 April 2021 on pages 16 – 18.

**20. Approval of Interim financial statements**

These Interim Financial Statements were approved by the Audit Committee as delegated by the Board of Directors and authorised for issue on 26 August 2021.
