#### FALCON OIL & GAS LTD.

# FORM 51-102F1 MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2012

The following management's discussion and analysis (the "MD&A") was prepared as at August 22, 2012 and is management's assessment of Falcon Oil & Gas Ltd.'s ("Falcon") financial and operating results and provides a summary of the financial information of the Company for the three and six months ended June 30, 2012. This MD&A should be read in conjunction with the unaudited condensed consolidated financial statements for the three and six months ended June 30, 2012 and 2011, and the audited consolidated financial statements and MD&A for the year ended December 31, 2011.

The information provided herein in respect of Falcon includes information in respect of its wholly-owned operating subsidiaries Mako Energy Corporation ("Mako"), a Delaware company, TXM Oil and Gas Exploration Kft., a Hungarian limited liability company doing business as TXM Energy, LLC ("TXM"), TXM Marketing Trading & Service, LLC ("TXM Marketing"), a Hungarian limited liability company, and its majority owned subsidiary, Falcon Oil & Gas Australia Limited ("Falcon Australia") (collectively, the "Company").

Additional information related to the Company, including the Company's Annual Information Form ("AIF") for the year ended December 31, 2011 dated April 30, 2012, can be found on the System for Electronic Document Analysis and Retrieval ("SEDAR") at www.sedar.com and Falcon's website at www.falconoilandgas.com.

# **Forward-looking Statements**

Forward-looking statements include, but are not limited to, statements with respect to: the focus of capital expenditures; the sale, farming in, farming out or development of certain exploration properties using third party resources; the impact of changes in petroleum and natural gas prices on cash flow; drilling plans; processing capacity; operating and other costs; the existence, operation and strategy of the commodity price risk management program; the approximate and maximum amount of forward sales; the Company's acquisition strategy, the criteria to be considered in connection therewith and the benefits to be derived therefrom; the Company's goal to sustain or grow production and reserves through prudent management and acquisitions; the emergence of accretive growth opportunities; the Company's ability to benefit from the combination of growth opportunities and the ability to grow through the capital markets; development costs and the source of funding thereof; the quantity of petroleum and natural gas resources or reserves; treatment under governmental regulatory regimes and tax laws; liquidity and financial capital; the impact of potential acquisitions and the timing for achieving such impact; expectations regarding the ability to raise capital and continually add to reserves through acquisition and development; the performance characteristics of the Company's petroleum and natural gas properties; and realization of the anticipated benefits of acquisitions and dispositions.

Some of the risks and other factors, which could cause results to differ materially from those expressed in the forward-looking statements include, but are not limited to: general economic conditions in Canada, the United States of America (the "United States"), the Republic of Hungary ("Hungary"), the Commonwealth of Australia ("Australia"), the Republic of South Africa ("South Africa") and globally; supply and demand for petroleum and natural gas; industry conditions, including fluctuations in the price of petroleum and natural gas; governmental regulation of the petroleum and natural gas industry, including income tax, environmental and regulatory matters; fluctuation in foreign exchange or interest

rates; risks and liabilities inherent in petroleum and natural gas operations, including exploration, development, exploitation, marketing and transportation risks; geological, technical, drilling and processing problems; unanticipated operating events which can reduce production or cause production to be shut-in or delayed; the ability of our industry partners to pay their proportionate share of joint interest billings; failure to obtain industry partner and other third party consents and approvals, when required; stock market volatility and market valuations; competition for, among other things, capital, acquisition of reserves, processing and transportation capacity, undeveloped land and skilled personnel; the need to obtain required approvals from regulatory authorities; and the other factors considered under "Risk Factors" in the AIF.

In addition, other factors not currently viewed as material could cause actual results to differ materially from those described in the forward-looking statements.

#### **Dollar Amounts**

All dollar amounts below are in United States dollars, except as otherwise indicated. The financial information provided herein has been prepared in accordance with International Financial Reporting Standards ("IFRS").

#### OVERVIEW OF BUSINESS AND OVERALL PERFORMANCE

#### **About Falcon**

The Company is an international energy company engaged in the business of acquiring, exploring and developing petroleum and natural gas properties, with offices in Vancouver, British Columbia, Dublin, Ireland, Denver, Colorado, Budapest, Hungary and Sydney, Australia. The Company's registered office is located at 810-675 West Hastings Street, Vancouver, British Columbia, Canada V6B 1N2. On June 18, 2012, the Company announced that the head office would be relocated to Dublin, Ireland (Regus Business Center, Alexandra Building, Sweepstakes, Ballsbridge, Dublin 4) and that the Denver office would be closed by the end of September 2012.

The Company's primary focus is the acquisition, exploration and development of conventional and unconventional petroleum and natural gas projects in Central Europe (specifically Hungary), Australia and South Africa.

On May 1, 2012, Mr. Philip O'Quigley assumed the role of Chief Executive Officer of the Company. Mr. O'Quigley will be responsible for all operations of the Company, including overseeing our current projects in Australia, Hungary and South Africa, joint venture activities, and evaluating and assessing new prospects and financing for the Company's continued growth and expansion in the worldwide market.

Mr. Eoin Grindley was appointed CFO with effect from July 30, 2012 and he will be taking over responsibility from the outgoing CFO, Evan Wasoff.

Ms Carol Law was appointed Head of Technical and Commercial Operations with effect from July 27, 2012.

# Beetaloo Basin, Northern Territory, Australia

Falcon Australia is the registered owner of four exploration permits ("the **Permits**"), comprising 7,000,000 acres in the Beetaloo Basin, Northern Territory, Australia.

The Permits are subject to a government royalty of 10% and non-government royalties of 13%-14%.

# Hess Participation Agreement

In June 2011, Falcon Australia and Hess Australia (Beetaloo) Pty Ltd. ("Hess") closed on an Evaluation and Participation Agreement (the "E&P Agreement"). Under the terms of the E&P Agreement, Hess has the exclusive right to conduct operations for the exploration, drilling, development and production of hydrocarbons from three of the four Permits, and excluding an area comprising 100,000 acres surrounding the Shenandoah-1 well (the "Area of Interest"). Initially, Hess had agreed to acquire seismic data, at its sole cost of at least \$40.0 million, over the Area of Interest within 18 months of the execution of the E&P Agreement. After acquiring the seismic data, Hess shall have the right to acquire a 62.5% working interest in the Area of Interest. If Hess acquires the working interest, they commit to drill and evaluate five exploration wells at their sole cost, one of which must be a horizontal well. All costs to plug and abandon the five exploration wells will also be borne solely by Hess. The drilling and evaluation of the five exploration wells must meet the minimum work requirements of the work program. Subject to obtaining Northern Territory Department of Resources ("DoR") approval for a 12 month extension of the Permits until 31 December 2013, Hess has agreed, subject to Hess proceeding to the "development phase", to carry Falcon, on the first development well, up to a gross cost of US\$10m. Costs to drill wells after the five exploration wells and the first development well will be borne 62.5% by Hess and 37.5% by Falcon Australia. Under a revised work program approved by the Northern Territory of Australia Government, Department of Resources on July 6, 2011, the Company is obligated to complete a minimum work program of \$18,152,000 in 2012, of which \$16,626,000 will be borne by Hess as part of the acquisition of seismic under the E&P Agreement.

# Operational Highlights

As of June 30, 2012, Hess had completed approximately \$20 million acquiring just over 600km of the seismic program under the E&P Agreement. In the second half of 2012, Hess, which has now deployed two seismic crews will continue to acquire 2D seismic data over the Area of Interest in accordance with the work program. At a current daily acquisition rate of 25km, they are expected to acquire all the necessary seismic data amounting to 3,600km to fulfill that commitment by year end. The cost of the program, at the sole cost of Hess, has increased from the original \$40million to an anticipated \$57.5million.

Falcon Australia is in the process of finalizing a seismic acquisition program in EP99 for 2012 and 2013. This will consist of between 150 and 450km of 2D seismic data as required in the exploration permit minimum work requirements. This seismic data will provide the necessary information to plan a potential well program in the coming years. The Company has received expressions of interest from a number of third parties regarding a possible farm-out on the combined area including the 100,000 acres around the Shenandoah well, measuring approx. 670,000 acres in total.

# Hungary

The Company holds a long-term Mining Plot (the "**Production License**") granted by the Hungarian Mining Authority. The lands within the Production License were formerly part of the Company's two petroleum and natural gas exploration licenses – the Tisza License and the Makó License (collectively, the "**Exploration Licenses**"). The Production License, covering approximately 245,700 acres, gives the Company the exclusive right to explore for and appraise petroleum and natural gas on properties located in south central Hungary near the town of Szolnok. The Production License further gives the Company the exclusive right to commercially develop petroleum and natural gas within the area covered by that

license. The Production License incorporates depths beginning at 7,546 feet (2,300 meters) from the surface, and extends to the basement of the Makó Trough, Pannonian hydrocarbon accumulation.

The existing well bores in the Makó Trough are currently under review for potential re-entry and recompletion to test the deeper play in the Szolnok, Endrőd or Basal Conglomerate formations.

# Makó Production License Letter of Intent

On June 9, 2011, the Company's wholly owned Hungarian subsidiary, TXM, entered into a Letter of Intent ("LOI") with Naftna Industrija Srbije, j.s.c. Novi Sad ("NIS") ("Agreement") for the earning by NIS of an interest in producing the Algyö play within the Makó Production License in Hungary in an area of approximately 995 square kilometers, from a depth of 2,300m down to the base of the Algyö Formation (the "Agreement Area"). Under the terms of the LOI, TXM will retain all rights within the entire Production License deeper than the base of the Algyö Formation such as the Szolnok and Endröd formations and, upon signing of a participation agreement, NIS would be required to make a \$1,500,000 payment to TXM. NIS shall then, at its sole cost, drill, test and complete three wells in the Agreement Area. These wells, to be drilled and tested within 18 months from the effective date of the Agreement, shall be located such that each well tests an independent Algyö prospect. NIS will earn a 50% interest in production from each prospect if the discovery well is tied in and placed on production at the sole cost of NIS. After the drilling of the three wells is completed, NIS has the right to acquire a 50% interest in production from the entire Agreement Area by paying TXM an additional \$2,750,000 (the "NIS earnin"). If NIS does not fulfill their drilling obligations under the Agreement, TXM will retain 100 percent interest in the Agreement Area.

If the NIS earn-in is completed, NIS and TXM will share future exploration, appraisal and development costs and production in the Agreement Area in accordance with their participating interests held under a joint operating agreement. TXM shall be the Operator under both the participation agreement and the joint operating agreement. The Agreement between NIS and TXM was finalized, but not signed on the July 31<sup>st</sup>, 2012 as the Transaction remains subject to a favorable ruling of the negotiated tax and accounting treatment by the Hungarian Ministry of Finance.

# Karoo Basin, South Africa

On October 27, 2009, the Company secured a Technical Cooperation Permit (the "TCP") to evaluate the Karoo Basin in central South Africa. The TCP covers approximately 7.5 million acres and is located approximately 120 miles northeast of Cape Town, South Africa.

Falcon's application for an exploration permit covering the TCP was accepted on September 7, 2010. Falcon has not yet been awarded the exploration permit due to a moratorium in South Africa while the government reviews its policy and regulations regarding fracture stimulated wells. Falcon's exploration application does not include any well drilling or fracture stimulation in the first 3 year exploration period and is limited to geophysical data acquisition and the study of drilling opportunities and environmental impact. Upon receipt of an approved exploration permit, the Company will be required to make a payment of one South African Rand per hectare (a total of approximately \$400,000), and obtain an approved work program. An additional payment will be required as a contribution to a South African government sponsored training program in the same amount required to obtain the exploration license.

#### Canada

Falcon owns non-operating working interests in three producing and one recently shut-in natural gas wells in Alberta, Canada which do not comprise a material portion of Falcon's assets (the "Hackett Interest"). The Company does not anticipate any further exploration or development of the Hackett Interest.

#### **RESULTS OF OPERATIONS**

This review of the results of operations should be read in conjunction with the interim condensed consolidated financial statements for the three and six months ended June 30, 2012 and 2011, and the audited consolidated financial statements for the year ended December 31, 2011.

Management's Discussion and Analysis of Financial Condition and Results of Operations for the Three Months Ended June 30, 2012 as Compared to the Three Months Ended June 30, 2011

The Company reported a net loss of \$5,872,000 for 2012 as compared to a net loss of \$1,749,000 for 2011. Changes between the 2012 and 2011 were as follows:

	Three Months Ended June 30,			Change			
		2012		2011		\$	%

# Exploration and evaluation expenses

Exploration and evaluation expenses increased by \$31,000, to \$429,000 in 2012 from \$398,000 in 2011. Expenses related to Hungarian properties increased by \$73,000 to \$377,000 in 2012 from \$304,000 in 2011, and is primarily attributable to function and integrity testing of the Makó 7 well in excess of recurring maintenance to safeguard the wells while the Company pursues a joint venture partner. South Africa expenses decreased by \$42,000 to \$52,000 in 2012 from \$94,000 in 2011 and were predominately for legal, environmental and application expenses incurred for the Company's filing for the application for an exploration permit in the Karoo Basin.

# Depletion and depreciation

Included in depletion and depreciation for the three months ended June 30, 2012 is an additional \$114,000 of depreciation associated with assets that were impacted by the decision to relocate the Company's headquarters from Denver, Colorado to Dublin, Ireland.

# *Share based compensation*

Share based compensation decreased by \$216,000 to \$913,000 in 2012 from \$1,129,000 in 2011. During 2012, an additional \$443,000 was recognized as share based compensation due to modification of options previously granted to employees and consultants being terminated as a result of the decision to relocate the corporate headquarters. This increase was offset by a reduction in the grant date fair value of 2012 grants relative to the fair value of prior grants.

#### General and administrative expenses

General and administrative expenses decreased by \$110,000 to \$1,702,000 in 2012 from \$1,812,000 in 2011. Significant cost decreases are as follows: legal – \$176,000; travel – \$41,000; investor relations – \$45,000. The decreases were offset by certain cost increases as follows: office and administrative costs – \$90,000 payroll and related costs – \$54,000.

# Reversal of litigation expense

On July 29, 2011, the Company entered into a settlement agreement regarding certain legal matters. The Company recognized a reduction in the related liability of \$1,654,000 for settlement of the litigation as of June 30, 2011 which was included in operations for the three months then ended.

#### Restructuring expense

Restructuring expense of \$612,000 was recognized in 2012 as a result of the Company's decision to relocate its corporate headquarters from Denver, Colorado to Dublin, Ireland, and consists of severance and health benefits – \$408,000; rent expense, net of sublease – \$154,000; and other – \$50,000. An additional \$443,000 was recognized as share based compensation due to modification of options previously granted to employees and consultants being terminated as a result of the decision to relocate the corporate headquarters. Depreciation and depletion includes an additional \$114,000 related to furniture and equipment in the Denver office.

#### Finance income

The change from 2011 to 2012 of \$(845,000) is the change in fair value of (i) the private placement warrants of \$(435,000) and (ii) the convertible debenture conversion feature of \$(398,000); and interest income on bank deposits of \$(12,000).

#### Finance expenses

The change from 2011 to 2012 of \$(1,184,000) is the effective interest on loans and borrowings of \$(279,000); the change in fair value of (i) the private placement warrants of \$(1,067,000), (ii) the Hess warrants of \$(40,000) and (iii) the convertible debenture conversion feature of \$(41,000); net foreign exchange loss of \$235,000; and accretion of provisions of \$8,000.

*Net loss attributable to non-controlling interest* 

The amounts reflected in 2012 and 2011 represent the share of Falcon Australia losses attributable to shareholders other than Falcon.

# Management's Discussion and Analysis of Financial Condition and Results of Operations for the Six Months Ended June 30, 2012 as Compared to the Six Months Ended June 30, 2011

The Company reported a net loss of \$7,723,000 for 2012 as compared to a net loss of \$4,707,000 for 2011. Changes between the 2012 and 2011 were as follows:

Revenue         \$ 249,000         \$ 297,000         \$ (48,000)         (16.2)%           Expenses           Exploration and evaluation expenses         1,114,000         698,000         (416,000)         (59.6)%           Production and operating expenses         12,000         19,000         7,000         36.8%           Depletion and depreciation         238,000         178,000         (60,000)         (33.7)%           General and administrative         3,247,000         3,580,000         333,000         9.3%           Share based compensation         1,441,000         1,564,000         123,000         7.9%           Reversal of litigation expense         —         (1,654,000)         (1,654,000)         7.9%           Restructuring expense         612,000         —         (612,000)         7.9%           Finance income         (647,000)         (1,077,000)         (430,000)         (39.9)%           Finance expense         1,955,000         1,696,000         (259,000)         (59.3)%           Net loss and comprehensive loss         (7,723,000)         \$ (4,707,000)         \$ (3,016,000)         (64.1)%           Non-controlling interest         (161,000)         (99,000)         (62,000)         (62.00%)           Net loss and		Six Months Ended June 30,			Change

# Exploration and evaluation expenses

Exploration and evaluation expenses increased by \$416,000, to \$1,114,000 in 2012 from \$698,000 in 2011. Expenses related to Hungarian properties increased by \$429,000 to \$978,000 in 2012 from \$549,000 in 2011, and is primarily attributable to function and integrity testing of the Makó 7 well in excess of recurring maintenance to safeguard the wells while the Company pursues a joint venture partner. South Africa expenses decreased by \$13,000 to \$136,000 in 2012 from \$149,000 in 2011 and were predominately for legal, environmental and application expenses incurred for the Company's filing for the application for an exploration permit in the Karoo Basin.

# Depletion and depreciation

Included in depletion and depreciation for the six months ended June 30, 2012 is an additional \$114,000 of depreciation associated with assets that were impacted by the decision to relocate the Company's headquarters from Denver, Colorado to Dublin, Ireland.

# *General and administrative expenses*

General and administrative expenses decreased by \$333,000 to \$3,247,000 in 2012 from \$3,580,000 in 2011. Significant cost decreases are as follows: legal – \$328,000; travel – \$109,000; and consulting fees – \$71,000. The decreases were offset by certain cost increases as follows: payroll and related costs – \$132,000; and office and administrative – \$57,000.

#### *Share based compensation*

Share based compensation decreased by \$123,000 to \$1,441,000 in 2012 from \$1,564,000 in 2011. During 2012, an additional \$443,000 was recognized as share based compensation due to modification of options previously granted to employees and consultants being terminated as a result of the decision to relocate the corporate headquarters. This increase was offset by a reduction in the grant date fair value of 2012 grants relative to the fair value of prior grants.

# Reversal of litigation expense

On July 29, 2011, the Company entered into a settlement agreement regarding certain legal matters. The Company recognized a reduction in the related liability of \$1,654,000 for settlement of the litigation as of June 30, 2011 which was included in operations for the six months then ended.

#### Restructuring expense

Restructuring expense of \$612,000 was recognized in 2012 as a result of the Company's decision to relocate its corporate headquarters from Denver, Colorado to Dublin, Ireland, and consists of severance and health benefits – \$408,000; rent expense, net of sublease – \$154,000; and other – \$50,000. An additional \$443,000 was recognized as share based compensation due to modification of options previously granted to employees and consultants being terminated as a result of the decision to relocate the corporate headquarters. Depreciation and depletion includes an additional \$114,000 related to furniture and equipment in the Denver office.

#### Finance income

The change from 2011 to 2012 of \$(430,000) is the change in fair value of (i) the private placement warrants of \$(3,000), (ii) the Hess warrants of \$190,000 and (iii) the convertible debenture conversion feature of \$(618,000); and interest income on bank deposits of \$1,000.

#### Finance expenses

The change from 2011 to 2012 of \$(259,000) is the change in the effective interest on loans and borrowings of \$(580,000), the net foreign exchange loss of \$301,000 and accretion of provisions of \$20,000.

*Net loss attributable to non-controlling interest* 

The amounts reflected in 2012 and 2011 represent the share of Falcon Australia losses attributable to shareholders other than Falcon.

# SUMMARY OF QUARTERLY RESULTS

The following is a summary of the eight most recently completed quarters:

As of:	September 30, 2011	December 31, 2011	March 31, 2012	June 30, 2012
Total assets	\$124,287,000	\$94,901,000	\$90,096,000	\$87,711,000

The Company is a development stage company, and has limited revenue which is not material. The Company's net loss and net loss per share relate to the Company's operations during a particular period, and are not seasonal in nature. Generally, the Company's total assets, exploration and evaluation costs, working capital and total shareholders' equity fluctuate in proportion to one another until such time as the Company completes additional financing.

#### LIQUIDITY AND CAPITAL RESOURCES

# Going Concern

For the six months ended June 30, 2012, the Company incurred a net loss of \$7,723,000, had operating cash outflows of \$3,808,000, and as at June 30, 2012 had a deficit of \$324,400,000. The Company's ability to continue as a going concern in the short term is dependent upon its ability to raise additional capital from the sale of additional common shares or other debt or equity instruments and/or to secure an industry partner for its operations in Hungary and South Africa. There is no assurance that additional capital will be available to the Company on acceptable terms or at all, or that an industry partner will be secured.

The Company has worked on securing joint venture funding for its operations in the Makó Trough located in Hungary. As at June 9, 2011, the Company entered into a Letter of Intent with Naftna Industrija Srbije, j.s.c. Novi Sad ("NIS") for the earning of an interest by NIS in producing the Algyö play within Falcon's Makó production license in Hungary. In July 2012, the Company and NIS concluded negotiations and have filed the proposed agreement with the Hungarian Ministry of Finance ("the Ministry") for a ruling on the tax and accounting treatment of the agreement. Upon a favorable ruling by the Ministry, the Company and NIS intend to enter into a definitive agreement.

In the longer term, the recoverability of the carrying value of the Company's exploration and evaluation assets is dependent upon the Company's ability to preserve its interest in the underlying petroleum and natural gas properties, the discovery of economically recoverable reserves, the achievement of profitable operations, and the ability of the Company to obtain financing to support its acquisition, exploration, development and production activities.

# Working Capital

Cash and cash equivalents as at June 30, 2012 were \$8,791,000, a decrease of \$6,567,000 from \$15,358,000 as at December 31, 2011. Working capital as at June 30, 2012 decreased to \$688,000 from \$13,983,000 as at December 31, 2011.

The decrease to cash and cash equivalents of \$6,567,000 was attributable to cash used in operating and investing activities of \$3,808,000 and \$2,697,000, respectively, and by the effect of exchange rates on cash of \$62,000, respectively.

# Accounts Receivable

Accounts receivable as at June 30, 2012 were \$503,000, which includes \$420,000 receivable from the Hungarian, Australian and Canadian governments as refunds of VAT, GST and GST, respectively, and other of \$83,000.

#### Accounts Payables and Accrued Expenses

Accounts payable and accrued expenses as at June 30, 2012 were \$2,112,000, and includes \$482,000 for capital expenditures related to the Shenandoah–1 well testing and other Beetaloo Basin activities in Australia, as compared to accounts payable and accrued expenses of \$3,836,000 as at December 31, 2011, which included \$2,299,000 for capital expenditures related to the Shenandoah–1 well testing in Australia. Included in accounts payable and accrued expenses as at June 30, 2012 is \$612,000 of restructuring expenses.

# **Capital Expenditures**

For the six months ended June 30, 2012, capitalized additions to exploration and evaluation assets were \$706,000, of which \$577,000 was in Australia and \$129,000 was in Hungary, of which \$145,000 was an increase to the Hungarian decommissioning provision. During 2012, cash payments on all exploration and evaluation assets were \$2,676,000, of which \$2,299,000 represented amounts incurred and reflected in accounts payable and accrued expenses as at December 31, 2011.

#### Australia

During 2012, costs incurred in Australia were primarily for geological and geophysical analysis, engineering and analytical evaluations, and working with the Northern Land Council and Aboriginal Area Protection Agency for site clearances and necessary environmental studies.

The Company's capital requirements for 2013 and beyond will be dependent upon the evaluation of the results of the 2012 work program.

# Hungary

As at June 30, 2012, the Company's cumulative expenditures for the Production License and Exploration Licenses, including the acquisition, seismic testing, drilling of exploratory wells, and initial testing and completion of wells, was approximately \$242,151,000, including a decommissioning provision of approximately \$7,854,000. Total expenditures are prior to an aggregate impairment of \$193,111,000 and proceeds of \$26,155,000. The net increase for the first half of 2012 of \$129,000 included an increase of \$145,000 to the decommissioning provision for the seven existing well bores. The net increase for Q2 2012 was \$722,000 which included an increase to the decommissioning provision of \$745,000.

The Company's future capital requirements for Hungary will be dependent upon, among other things, the evaluation of the Hungarian properties and ability to obtain a joint venture partner. The Company continues to evaluate the potential for further activity in the Makó Trough in the Production License. The Company's requirements for additional capital are dependent upon its future operating plans.

# Debt and Equity Capital

The availability of debt and equity capital, and the price at which additional capital could be issued will be dependent upon the success of the Company's exploration activities, and upon the state of the capital markets generally.

# Legal Matters

The Company may, from time to time, be involved in various claims, lawsuits, disputes with third parties, or breach of contract incidental to the operations of its business. The Company is not currently involved in any claims, disputes, litigation or other actions with third parties which it believes could have a material adverse effect on its financial condition or results of operations.

#### **Transactions with Non-Arm's Length Parties and Related Parties**

*Services – Directors and Officers* 

During 2012, the Company incurred expenses in the amount of \$45,000 (2011 – \$48,000) to a current director of the Company, Dr. György Szabó, for advisory and consulting services rendered to TXM.

# DISCLOSURE OF OUTSTANDING SHARE DATA

The following is a summary of the Company's outstanding share data as at June 30, 2012 and August 22, 2012:

Class Of Securities	June 30, 2012	August 22nd, 2012
Common Shares	695,654,500	695,654,500
Stock Options	34,937,000	34,937,000
Private Placement Warrants <sup>(1)</sup>	65,287,500	65,287,500
Hess Warrants <sup>(2)</sup>	10,000,000	10,000,000

#### **Notes:**

- (1) Warrants to purchase 65,287,500 Common Shares at a price of \$0.19 (CDN\$0.19) per Common Share were issued to shareholders on April 11, 2011 in connection with the Falcon Private Placement discussed above, and expire on April 11, 2014.
- (2) Warrants to purchase 10,000,000 Common Shares at a price of \$0.19 (CDN\$0.19) per Common Share were issued to Hess on July 13, 2011 in connection with the Hess transaction discussed above. The Hess Warrants are exercisable commencing on November 14, 2011, and expire on January 13, 2015.

#### OFF BALANCE SHEET ARRANGEMENTS AND PROPOSED TRANSACTIONS

The Company does not have any off-balance sheet arrangements or proposed transactions, other than operating leases.

# NEW ACCOUNTING PRONOUNCEMENTS

Several new standards and amendments to existing standards and interpretations, which have been issued by the International Accounting Standards Board ("IASB"), and which are expected to be relevant to the Company are not yet effective and have not been applied in preparing these financial statements. The Company is currently assessing the expected impact, if any, that the adoption of these standards will have on its financial statements, and does not expect adoption of these new standards and interpretations to have a material impact on the financial statements.

#### **BUSINESS RISKS AND UNCERTAINTIES**

Risks and uncertainties that could cause the Company's actual results to materially differ from current expectations have not changed from those disclosed in the Company's MD&A as at December 31, 2011.

#### MANAGEMENT'S RESPONSIBILITY FOR MD&A

The information provided in this MD&A, is the responsibility of management. In the preparation of this MD&A, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in this MD&A.

The audit committee has reviewed the MD&A with management, and has approved the MD&A as presented.
