Philip O'Quigley, CEO of Falcon commented:

"We have had an extremely busy 2013 and Quarter 1 2014. Our immediate attention is now focused on securing a new farm-out partner for our acreage in Australia and the completion of testing of Kút völgy-1. Progress to date on all of these fronts is in line with our expectations, we will make further announcements in due course."

Australia

Farm-out discussions in Australia advancing

Further to previous press releases, Falcon was approached by several oil and gas companies interested in farming into the Beetaloo Basin. Falcon is well advanced in its discussions with a number of those companies.

Consolidation of interest in Australian subsidiary

In July 2013 Falcon completed the acquisition of a 25.4% minority interest in Falcon Australia consolidating the Group's interest at 98% of the company.

Reducing the Overriding Royalty, Beetaloo Basin, Australia

On 1 November 2013, Falcon announced that Falcon Australia, had entered into an agreement ("**the CRIAG Agreement**") with CR Innovations AG ("**CRIAG**") to acquire its 4% Overriding Royalty Interest ("**ORRI**") relating to its exploration permits in the Beetaloo Basin. On 17 December 2013, Falcon

announced that Falcon Australia, had entered into an agreement with Malcolm John Gerrard, Territory Oil & Gas LLC and Tom Dugan Family Partnership LLC (collectively “**TOG Group**”) to acquire up to 7% (seven eighths) of the remaining 8% private ORRI over Falcon Australia’s exploration permits in the Beetaloo Basin. The completing of the two agreements to acquire 8% of the privately held ORRI at a total cost of US\$7 million, of which US\$6 million is payable only upon completion of a Farm–Out in Australia. In addition, the Group has secured agreement to acquire a further 3% based on two five year call options granted to Falcon at a future combined cost of US\$20 million leaving only a 1% royalty in private hands.

Hungary Drilling

The well testing operations on the Kút völgy-1 well in Hungary have started. Kút völgy-1 is the first of a three well drilling and testing programme fully funded by NIS, to evaluate the gas potential of the Algyő Formation in Falcon’s Mako trough permit. The testing objectives are to determine reservoir quality and gas productivity from the target Algyő formation encountered in Kút völgy - 1.

Admission to trading on AIM and ESM

In March 2013, Falcon was admitted to trading on the AIM market of the London Stock Exchange and the ESM market of the Irish Stock Exchange of the Company’s existing share capital and the additional 120,381,973 new common shares in the capital of the Company issued pursuant to the concurrent conditional brokered private placing, at a price of £0.14 (CDN\$0.215) per share, raising gross proceeds of \$25.7 million.

Debt repayment

In June 2013, Falcon repaid the full amount outstanding on its Convertible Loan Note of CDN\$10.7 million. This repayment means that the Group is now completely debt free.

Results for operating activities

Falcon incurred a loss of US\$3.6 million in the year ended 31 December 2013, decreasing from a loss of US\$17.7 million in the year ended 31 December 2012.

Falcon’s cash and cash equivalent balance at 31 December 2013 was US\$8.4 million (31 December 2012: US\$2.9 million).
